1. Work Plan Updates & TP103 Updates

- Reworked Work Plan to utilize TP103
- SOM tech section that handles TP103 willing to take up NTPEP DWS TC recommendations to be adopted into the method
- New Work Plan attached TP103 Product Type categories and follow the test methods wherever appropriate
- Discussion: thoughts on new work plan?
- Tests required by type of DWS table needs to be corrected to line up with new section 5.1f

- Intention is to line up WP to TP103 flowchart.
- TP103 only looks at bond strength for anchor systems. No one on the line shared experience with the pull test for these nonstructural anchors.
- Karen proposed to leave out pull test for anchor systems

2. Once Work Plan is Balloted, Need to Decide Direction to go for New Request for Proposals

- Once new Work Plan is balloted, Karen to work with Jon to address testing facilities

3. Industry Discussion

- No industry discussion items brought up

4. Other Business

- Natalie Roskam's responsibilities changing at her DOT so open to have someone else fill vice-chair position but may be able to stay on.
- No one on the line expressed interest but anyone interested encouraged to reach out to Jon

5. Adjourn
