1) New Liaison – Courtney Wallace

2) Current Test Deck Statuses

- a. 2 products from 1 manufacture put down for SRPM
 - i. Snowplowable hardness testing done this month
- b. GA- received all the samples & will be delivered to Florida on Thursday
 - i. Installation on 13th & 14th of November

3) Adding Lens Water Pressure Test

- i. Potential new test based on Illinois – moisture resistance ran in Ohio
- ii. Adding new section to DataMine
- iii. Would need to be added to the workplan
- iv. Ted- will there be a before & after test?
 - Kelly – obvious if there is a failure used as a pass/fail
 - Good point to use before & after pics, but up to testing lab

4) Other Action Items

- a. **Include Note In DataMine of Adhesive that Holds Casting to Ground & Liquid Nails that Holds Len to Casting**
 - Added to the application the manufacturer submits
 - Wording needs to be put into the workplan
- b. **Publishing Control Data, and Providing a Guide to Address the Usage of the Control Data**
 - Adding the control data
 - May need to have a taskforce for this & have it consistently for RPM/SRPM
 - Another conference call to discuss
 - Would need to be added to the workplan
- c. **Explore Merging of Work Plans**
 - Overlap between the 2 work plans
 - Think good to keep separate
- d. **Invite Bill Real to Present State Usage Survey Info**
 - Was not on the call
 - May need to set up another call
- e. **Indiana taking over Snowplowable test Deck**
 - Submitted draft agreement
 - Jon & Courtney will discuss about editing contract

5) Open Discussion

- a. Matt (NCDOT) – Snow plowable markers castings - 6 alternative things they are trying out. Hoping to get visual data & maybe crash data with a quick presentation for state-wide conferences
 - i. Ohio & Illinois interested in getting the data
 - ii. Guide light has been used more – trying to get another manufacturer approved (Marker One – R100 Marker)
 - iii. VA also looking into different markers

6) End
