

AGENDA FOR TTCD 8-16-18

Attendance:

Name	Agency
Paul Gentry	Florida DOT
Joe Simon	Tennessee DOT
Maribel Wong	AASHTO
Michael Pelham	Indiana DOT
John Bassett	Texas DOT
Ted Whitmore	West Virginia DOT
Linette Rizos	Wisconsin DOT
John Intagliata	Trinity Industries, Inc.

1. Opening comments and introductions of tele-conference participants
2. Discussion of this year's cycle submission of products for testing
 - Submission cycle has ended
 - Submissions from 3 manufacturers
 - 1 for high speed test
 - 1 for 55mph impact
 - Random sampling has already taken place
 - Two product waiting at TTI to be done in the next two weeks
 - In communication with ALDOT to do random sampling for a submitted **ground -mount delineator**
3. Discussion of how this will impact the other states as far as what their "Delineator" specifications and standards mandate. Still need input into this from the states
In addition to input from states a process needs to be written into work plan on how to handle product disposal
4. Data Mine discussion
DataMine processes to come into play in the next few months once the group goes through the first iteration of data entry

Drums update:
4 product submitted for drum testing
Products to be sampled in the next week or two in Wisconsin to get the warm weather testing running
Drum testing will take place as soon as products get to testing facility
5. Questions about any of the above
No questions received
