| Malusky, Katheryn | AASHTO | | None |
| Barrs, Melissa | Florida Department of Transportation | Member | Non- Voting |
| Alex | Georgia Department of Transportation | | |

2) Review of Outstanding Action Items

- a) **AI – NTPEP:** to coordinate a call for test data review with Barry Paye (WisDOT), FLDOT (testing facility), Vince Glick (NTPEP), Jonathan Sirianni (NTPEP).
- i) **Response:** Barry needs to review the latest round of data for full release.
- Data is about to be released again to manufacturers after some edits were made.
 - FL mentioned that moving forward responsiveness should be quicker than it may have been for a while.
 - Data has been being passed around through email since DataMine is not available yet.
- b) **AI – NTPEP:** Have the data published on NTPEP.org WMA site temporarily after coordinated reviews are performed with Lead State and Manufacturers
- (1) Location would be: <http://www.ntpep.org/Pages/WMAReports.aspx>
- ii) **Response: Changes Live July 14th, 2017**
- July 14th is still the plan. Once it is live, if you find a bug send it to Jonathan.
- c) **AI - NTPEP/Barry Paye (Chair – WisDOT):** Vince Glick/Jonathan Sirianni (NTPEP) reaching out to Collaborative Aggregate for 2017 – Cycle 2 to provide information for DataMine application submission. Contact information will be acquired from Barry Paye (WisDOT)
- i) **Response:** Outreach has been made. No product submissions received to date.
- FL has indicated that they are flexible on the cutoff date for the submission cycle.
- d) **AI - NTPEP:** NTPEP to extract survey data acquired by Bill Real (NTPEP) that are WMA specific. NTPEP will provide this consolidated data along with a drafted announcement for more volunteers to Barry Paye (WisDOT)
- i) **Response: See attached spreadsheet**
- Barry was not surprised by the response
 - Since not many people are using the program, we need to make a push at the next annual meeting
- e) **AI – NTPEP:** Vince Glick (NTPEP) / Jonathan Sirianni (NTPEP) to submit a request to taskforce members for initial documentation their state currently uses for anti-strip qualification. Post-consolidation and delivery of this documentation, a Taskforce Call will be organized.
- (1) **Taskforce Members:** Barry Paye(WisDOT), Richard Willamsee (TXDOT), Jason Davis (LADOT), Heather Hall (TNDOT), Victoria Woods (Ingevity)
- (2) Meeting needs to be scheduled in next quarter to get started.
- Jason replacing currently listed LA member – get him on the list
 - Have some starting info, but lacking on specific testing
 - Need to get another call together.
 - If you are interested in joining this group, let Barry or Jonathan know
- f) **AI (post May) – Barry Paye(Chair – WisDOT / NTPEP:** AASHTO/NTPEP to coordinate a draft NTPEP promotional article for delivery/review to the Chair (Barry Paye, WisDOT)
- i) **Response:** Barry will work on this in the coming month.

- g) **AI - NTPEP:** NTPEP to provide Mark Brum (MassDOT) the WMA informational PowerPoints available for referencing during the Irvine Meeting in early May
- i) **Response: Email was sent to Mark on 4/20/17**

3) Update-Program Status

a) Testing Update – Florida DOT

- Testing is caught up, and nothing is outstanding.
- Data is in manufacturers hands

b) DataMine 3.0 Update – NTPEP

•

c) Anti-Strip Workplan –

- i) **Keep as standing agenda item until developed**
- ii) **Formalize Task Force (and add others if interested) and schedule teleconference in the next quarter.**
- We will work on scheduling a teleconference, to see where we want to start with this.
 - Multiple teleconferences are likely to be needed
 - Once we have something in place we need to decide whether this will fall under the WMA Work Plan or if it should be its own Work Plan

d) WMA Workplan –

- i) **Are there revisions that are needed?**
- ii) **Is a formal Task Force needed?**
- Once people can see the data that has been collected, we will want to take a look at the information and determine what changes need to be made.
 - Think about this once you get the data.
- Melissa sent a copy of the worksheet for data to Vince several months back with comments.
 - She will send it to Barry and we can go through this as a group.

4) Open Discussion

- Going to get to work on acceptance criteria to help states
- Meetings will be listed on the website calendar, and you will receive Outlook meeting invitations.
- Jon will check the member list to see who's still interested
